LinkedIn: <https://www.linkedin.com/in/davittbarry/>

Portfolio: <https://davittportfolio.com/>

Objective

A focused and dedicated ICT professional seeking opportunities to leverage a diverse skill set in website management/creation, service desk technical help, and various programming languages. The contract with Mysterio Oy ended September 28, 2023 due to economic reasons within the company. Mysterio Oy has kindly offered to serve as a reference and can vouch for abilities and explain the situation.

Skills

Programming: Proficient in PHP, WordPress, Laravel, React, Astro, Vue.js, HTML, SQL, CSS, SASS, Tailwind, MySQL, MongoDB, Next.js, Express, Node.js, and Drupal.

Other technical skills: Proficient in command-line usage across various platforms, including PowerShell and Terminal, Linux/Windows, version control (Git, GitHub & BitBucket etc.), Docker, setting up, configuring, and maintaining web servers such as Apache and Nginx, RESTful APIs/endpoints, experience with cloud platforms like AWS and usage of various development staging environments.

Website Management: Adept at migrating websites to local work environments, updating core systems/plugins/modules and verifying for errors before updating the live website through version control.

Communication: Excellent verbal and written communication skills in English and Finnish.

Documentation: Experienced in compiling comprehensive technical documentation.

Curriculum Vitae – Davitt Barry

Work Experience

Mysteerio Oy, Helsinki

Junior Developer, *October 3, 2022 – September 28, 2023*

Key responsibilities included updating and modernizing Verman Oy's internal ordering applications using React hooks and a Drupal API. Participated in the upcoming renewal of Mysteerio's own website, which will use Astro and AWS. Additionally, updated a significant portion of DBProServices' WordPress website. Other clients included: Bioteekki, Autoliitto, Kotipizza, Vertia, Suomen Musiikintekijät, Suomen Kennelsäätiö and many others.

Main Tasks:

Collaborated on multiple web development projects, focusing on website updates, renewals and migrations. Played a key role in the modernization of legacy systems, including updating websites to PHP 8.1. Gained experience in creating technical documentation to support development projects.

A more in-depth internal CV from Mysteerio Oy can be supplied on demand.
